

18:01:26 From Paul: SMN to Everyone : Apologies. Problems signing in and starting session. Richard do start!

18:03:35 From Linda Carroll to Everyone : Could everyone mute?

18:03:42 From Tanya & Armando to Everyone : Could everyone please mute!!

18:05:12 From Paul: SMN to Everyone : Sorry my sound has gone. - Real computer probs tonight

18:11:53 From Ghislaine Young to Everyone : By definition a profession should abide by a recognised code of ethics

18:16:37 From Linda Carroll to Everyone : The foundational question and ultimate quest is a definition of What it is to be a human being and what is the nature of reality.

18:17:03 From Tanya & Armando to Everyone : Well said, Jane.

18:18:16 From Linda Carroll to Everyone : We must see the various religions as varying ways of approaching 'reality'.

18:18:58 From Linda Carroll to Everyone : There is a danger of reducing 'ethics' to relativism.

18:21:26 From Natalie Tobert to Everyone : we still have a problem today, when some Jews regard themselves as chosen people, and who regard the Arabs or Palestinians, are not human.

18:22:05 From Linda Carroll to Everyone : Halal is a vile way of killing.

18:22:52 From Linda Carroll to Everyone : Sentient morality of All beings.

18:24:06 From Linda Carroll to Everyone : Cultural belief systems as ideologies as most All political notions.

18:25:43 From Linda Carroll to Everyone : Ontology needs to be the ultimate goa.

18:26:10 From Paul: SMN to Everyone : Sorry I still cannot hear you and cannot reboot my laptop as it will stop the session!!

18:26:29 From Linda Carroll to Everyone : Non-duality and non-separability is a good start - we are One - ALL earthlings on this planet.

18:27:14 From Barbara Jikai Gabrys to Everyone : So sorry Paul is there any trick to come on the phone for you? Zoom is not always forgiving...

18:27:22 From Linda Carroll to Everyone : We are in times where, unfortunately each one of us must wrestle with these immensely complex issues,

18:27:35 From Tanya & Armando to Everyone : Paul, if you make someone else co-host then you can reboot and return to the meeting.

18:28:13 From Natalie Tobert to Everyone : we still have a problem today, when some Jews regard themselves as chosen people, and who regard the Arabs or Palestinians, as not human. How ethical are we as individuals, who allow the bombing to continue, to eradicate others in the Holyland. How ethic am I , if I don't feel able to stop the bombing?

18:28:54 From Linda Carroll to Everyone : Myths and metaphors can reveal more 'truth' about our existential lives than so called 'reality.'

18:29:56 From Kyriakos Fiakkas to Everyone : On line experiment on moral decision-making. takes about 10 minutes. <https://research.sc/participant/login/dynamic/E5978E63-F971-4F6E-A357-8637F54EA145>

18:31:59 From Linda Carroll to Everyone : Comparative 'beliefs' may

lead us again to relativism.

18:33:10 From Linda Carroll to Everyone : What about Jung's insights and the vital work of individuation.

18:33:27 From Barbara Jikai Gabrys to Everyone : Sorry Jane there are no 'sacred' texts in science...

18:34:13 From Scientific and Medical Network to Everyone : Have sound! TX

18:34:20 From Natalie Tobert to Everyone : welcome Paul

18:34:30 From Barbara Jikai Gabrys to Everyone : In order for science to progress every theory, every experiment, every hypothesis may and can be challenged

18:34:39 From Verena Davis to Everyone : That's so good Paul.

18:34:42 From Tanya & Armando to Everyone : Yay!! 🎉 @ Paul

18:35:28 From Judy Hanmer to Everyone : Youi can't prove that there are other dimensions – the sort of thing that mystics experience. Should we deny this sort of experience if we have it?

18:35:33 From Gabriel Blass to Everyone : Vaccination!

18:35:49 From Natalie Tobert to Everyone : vaccination as a truth?

18:36:07 From Linda Carroll to Everyone : Agree with that Judy, thank you. Very important.

18:36:18 From Gabriel Blass to Everyone : As a "truth" on which ethical decisions are made.

18:36:26 From Judy Hanmer to Everyone : I don't 'believe' in Christianity. I experience it!

18:36:28 From Sue D. to Everyone : Jane, I so agree. Our beliefs determine our reality. If we change our beliefs, then we change our lives. Where does beliefs come from but only how we think. One huge benefit of being in the group is to examine how I think... perhaps change my thoughts, then my beliefs, but all in all to recognize how I think...

18:38:34 From Sue D. to Everyone : I am so sorry I have an old computer, no video and I can use headphone only

18:39:26 From Francis Standish to Everyone : If You have a conflict, ibso facto, are you are caught in duality? This is not a moral question, though it might be a true experience.

18:39:56 From Francis Standish to Everyone : "Knowledge is the transformation of experience".

18:41:07 From Linda Carroll to Everyone : We need to define terms such as Authority, Dogma, Ideology, Doctrine etc. Definition of terms.

18:41:26 From Judy Hanmer to Everyone : No I don't have a conflict. I hold the opposites in tension as Jung advises and learn from that experience.

18:41:32 From Barbara Jikai Gabrys to Everyone : Didn't Romans consider slaves as pieces of furniture?

18:41:54 From Natalie Tobert to Everyone : to the Indians, African people, and the Arabs now in Gaza. I don't know what to do, to feel like an ethical person

18:41:54 From Linda Carroll to Everyone : Yes, thanks Judy, that's so important.

18:42:14 From Sylvia Clare to Everyone : I agree with Judy though not rom jung basis but from personal experience.

18:43:03 From Francis Standish to Everyone : Suzanne. The genocide of native Indians was carried

18:43:24 From Linda Carroll to Everyone : Maybe if we put the Living Earth as primary we can join as ONE.

18:43:43 From Francis Standish to Everyone : out by savage Europeans and not Americans!

18:44:28 From Linda Carroll to Everyone : WE need a critical perspective on our cultural heritage.

18:45:46 From Sylvia Clare to Everyone : many very young children possess a really pure form of truth and justice. I knew at three years old when I saw my first cowboy film or whatever that they Indians were the 'goodies' for instance.

18:46:13 From Linda Carroll to Everyone : WE are of and within the one earth.

18:47:05 From Chrissy Philp to Everyone : Here is my take on Truth. There are a myriad different points of view each one true in itself. Not one TRUTH. No one point of view is truth because it rejects all others. Only the knowledge that there are a myriad points of view is TRUTH. All men are limited. The wise man knows how little he knows. The wise man bases his understanding on this truth.

18:48:35 From Judy Hanmer to Everyone : I think that throughout life one needs signposts - ideas, books, people - who speak to the place we are at at that moment. Gradually one's understanding expands to take in all the ideas one encounters. The important thing is to be open and to listen.

18:48:53 From Francis Standish to Everyone : Socrates: "The one truth I know is that I know nothing"

18:49:04 From Chrissy Philp to Everyone : Kyriakos. I Love your idea. X

18:49:36 From Barbara Jikai Gabrys to Everyone : Yes Kyriakos I (a Zennist) do it frequently with Quakers at Oxford.

18:49:57 From Linda Carroll to Everyone : The one that encompasses the whole is true communion, we transcend all apparent differences and experience The One.

18:51:00 From Barbara Jikai Gabrys to Everyone : Also before Covid we had an annual Interfaith Walk, starting from the Synagogue, passing by CoE churches and ending at a mosque. There was a feast to finish off!

18:51:28 From Ghislaine Young to Everyone : I'm not so sure Chrissy? Everythingism could deny some truths. We must not judge others but there is discernment. C S Lewis put it beautifully in his wife Joy's funeral: I'm paraphrasing but when she died so did the whole world she experienced but at the same time the world carried on regardless. That's the paradox for each one of us I think.

18:51:59 From Linda Carroll to Everyone : WE must recognize the Earth as Primary - The Cosmic sense of belonging of our being within The One.

18:53:57 From Chrissy Philp to Everyone : I shall leave business ethics to Richard. He is the expert.

18:53:58 From Linda Carroll to Everyone : Neo-liberalism has been the most catastrophic infliction of suffering on this one and only habitable earth.

18:59:29 From Linda Carroll to Everyone : Maybe we ought to put LOVE at the heart of the matter. Love is a subjective, personal experience, intuition/emotion/caring compassion/agape/caritas/ etc all relevant experiences.

18:59:32 From Verena Davis to Everyone : Cause no harm, or at least minimum harm.

18:59:33 From Barbara Jikai Gabrys to Everyone : 'Every stick has two ends'

19:00:07 From Chrissy Philp to Everyone : The hand that holds the gun cannot shoot anyone without a gun. I don't like guns.

19:00:41 From Linda Carroll to Everyone : The intolerable and horrendous suffering we inflict on billions of innocent, defenceless creatures. Ban Fur Farms.

19:01:14 From Barbara Jikai Gabrys to Everyone : Linda do you know this saying 'I love mankind it's the people I can't stand'?
Attributed to a famous writer (sorry can't remember)

19:01:40 From Linda Carroll to Everyone : Yes, Barbara – very good!

19:03:13 From Ghislaine Young to Everyone : Yes Linda Love is the thing that should be central. But you can't command love only the attitude of oneness and caring for the other. so my simple brain says ethics is about service to the other and doing no harm

19:03:38 From Linda Carroll to Everyone : Thanks Ghislaine.

19:05:02 From richard rooley to Everyone : What is the difference between farming mink and cows and salmon

19:05:05 From Linda Carroll to Everyone : Science must become Ecological.

19:05:35 From Linda Carroll to Everyone : No difference Richard = they are all horrible.

19:07:15 From Verena Davis to Everyone : Ethical farming practices, large scale leads to greater stresses on the animals as sentient beings and dehumanises us.

19:07:22 From Gabriel Blass to Everyone : Alan – beautifully spoken

19:08:03 From Linda Carroll to Everyone : Yes, Verena, I agree totally. Thank you.

19:09:33 From Chrissy Philp to Everyone : We used to have sheep. They were very very happy. They were not frightened of death like humans are. What matters to me is that they are killed with love and caring. It can be done.

19:10:36 From Linda Carroll to Everyone : 'Killed with Love'? Not sure about that Chrissy.

19:11:37 From Sue D. to Everyone : problem is we all need to be right

19:12:08 From Chrissy Philp to Everyone : Killed with love means quickly and without frightening them. That how I would like to go.

19:12:21 From Judy Hanmer to Everyone : so maybe we need to let go of belief systems. That doesn't mean that we can't appreciate the beauty of something like religious ritual.

19:12:30 From Jane Dillon to Everyone : The link to my webinar which is called Extinction, the One Mind and Evil: Transcending Reductionist Science with Incontrovertible, Reproducible, Non-Placebo Proof.. We introduce our post-materialist science as Transcendental Science and Technology, which is what we urgently need to help the Earth and ensure a future human race.. <https://www.youtube.com/watch?v=lsh4yku2WV4>

19:13:35 From Francis Standish to Everyone : Really Sue? ALL of us need to be right? How do you know this is true?

19:14:20 From Sue D. to Everyone : Most of us cannot get beyond our ego, ie to be right

19:15:40 From Francis Standish to Everyone : Great Sue that you at least reduced all to most!

19:16:59 From Sue D. to Everyone : and not to take things personally

19:17:12 From Barbara Jikai Gabrys to Everyone : Gerri isn't that a colloquial expression 'beating about a bush?'

19:18:16 From Chrissy Philp to Everyone : What matters is WHY we are lying. Don Juan teaches cunning wisdom.

19:18:54 From Linda Carroll to Everyone : We are ALL animals, it would be impossible to deny that reality. We have sentience and as David Attenborough says 'Not one of us deserves to be here more than any other creature'.

19:19:49 From Francis Standish to Everyone : YouTube: Jordon Petersen, The Truth – personal transition from living lies to integrity.

19:23:10 From Barbara Jikai Gabrys to Everyone : Three deep bows, Helen!

19:24:21 From Kyriakos Fiakkas to Everyone : Sorry I need to leave now as my wife is calling me. Once again here is the link for the Moral Decision-Making study. <https://research.sc/participant/login/dynamic/E5978E63-F971-4F6E-A357-8637F54EA145>

19:24:39 From Linda Carroll to Everyone : Truth within the reference to our belonging to one earth, one cosmos as primary – and the idea of 'consciousness; as primary within that reality. There is a whole spectrum of 'truth; levels. The ultimate context if The One Universe.

19:24:59 From Gabriel Blass to Everyone : Can I say my penny's worth

19:25:10 From Ghislaine Young to Everyone : Thank you Helen very apt

19:25:40 From Jane Dillon to Everyone : I agree Linda, there is a "structure" that we want to know when we seek the "truth"... and now we NEED to know in order for us and the Earth to survive

19:27:37 From Judy Hanmer to Everyone : I love Marilyn's definition.

19:28:09 From Linda Carroll to Everyone : But the subjective is vitally important if it causes destruction or contributes to creation. How each one of us thinks/feels/imagines is crucial to understand.

19:28:27 From Theresa Brownlee-Blake to Everyone : Thank you everyone lots of nourishment to ponder on

19:28:47 From Francis Standish to Everyone : I find your model Marylyn resonates well for me.

19:29:07 From marilyn to Everyone : agree linda

19:30:01 From Linda Carroll to Everyone : Maybe WISDOM and understanding of complexity is that evolutionary process.

19:30:06 From Barbara Jikai Gabrys to Everyone : Gabriel I cwn chip in next time as at the moment I'm 'researching' just that, based on a mountain of old letters and other documents

19:30:27 From Linda Carroll to Everyone : Thank you Richard.

19:30:50 From Linda Carroll to Everyone : Yes, good idea Paul.

19:30:51 From Sue D. to Everyone : Thank you Richard and Paul. of course

19:30:53 From Jane Dillon to Everyone : yes
